

Corporate Social Responsibility Statement

Behind our corporate strategy for sustainable growth lies a high sense of responsibility towards team members, customers, suppliers, society, and the environment.

The company devotes a considerable amount of time and money to charity, in such areas as health, education and support organisations, worldwide. This benevolent spirit is manifested at senior management level and is generated right through the fabric of the business. The company is known for its generosity and charitable attitude to Society.

The company's commitment to sustainability ensures that every possible step is taken to reduce our impact on the environment and meet the demands of our corporate responsibilities. Strict waste management & recycling policies guarantee that all waste is disposed of through recognised recycling providers and continual investment is made to methodically reduce our emissions and carbon footprint in future.
